Testing scenario

Feature: Add transaction

Function ID: F1

Test Case ID	Testing Scenario
F1TC1	Check the result on click on add transaction button.
F1TC2	Check the result on entering the transaction.
F1TC3	Check the result on entering the category of transaction.
F1TC3	Check the result on click "add transaction".
F1TC4	Check the result on the transaction is added to the category or not.
F1TC5	Check the result when verifying Information.

Feature: Add budget

Function ID: F2

Test Case ID	Testing Scenario
F2TC1	Check the result when Go to the dashboard.
F2TC2	Check the result on the entering budget.
F2TC3	Check the result on entering the budget category.
F2TC4	Check the result on entering a type of budget like weekly,monthly,etc.
F2TC5	Check the result when Click on the "Submit" button.
F2TC6	Check the result when verifying Information.

Feature: Scan/add bill and receipt

Function ID: F3

Test Case ID	Testing Scenario
F3TC1	Check the result when Go to the dashboard.
F3TC2	Check the result on click "Add bill/receipt".
F3TC3	Check the result on the click option "Scan receipt".
F3TC4	Check the result when scanning the bill/receipt.
F3TC5	Check the result when clicking add bill/receipt.
F3TC6	Check the result on the click option "Add receipt".
F3TC7	Check the result on entering the expense category of receipt/bill.
F3TC8	Check the result on the entering date of receipt/bill.
F3TC9	Check the result when clicking add bill/receipt.
F3TC10	Check the result when verifying Information.
